SUMMARY

I am looking to secure a position in web development, where I am able to work with industry professionals and gain experience. In my spare time, I try to expand and develop my skills as much as I can by completing online courses and carrying out my own projects. I am now hoping to utilize these skills with a company that can help me to grow and achieve my goal of becoming a professional software developer.

EDUCATION

Nottingham Trent University

Start: 2018-10-01 / End: 2021-06-30

Higher National Diploma

Matthew Boulton

Start: 2015-09-24 / End: 2017-07-31

BTEC Level 3 Extended Diploma

WORK EXPERIENCE

Upwork Web Developer

Start: 2022-02-22 / End: 2022-03-30

Using a mockup image of a page provided by the client I developed a landing page using HTML, CSS and Javascript for use on their knowledge base software.

Freelance Web Developer

Start: 2022-01-01 / End: 2022-02-13

I was tasked with developing a portfolio for a graphic design student who is looking for a way to show off her best projects and the outcomes. The purpose of the portfolio is for potential employers looking to hire her, to have easy access to her best work as well as a way to always have her work digitally ready to show anyone interested in what she has created.

SKILLS

HTML | CSS | JavaScript | SASS | React JS | Node JS | Express JS | MongoDB | Git
