SUMMARY

I am looking to secure a position in software development, where I am able to work with industry professionals and gain experience. In my spare time, I like to expand on my current skills as much as I can by completing online courses and starting & finishing my own projects. I am now looking to utilize the skills I have gained with a company that can help me grow into a better developer and achieve my goal of becoming a professional software developer.

EDUCATION

Nottingham Trent University

Start: 2018-10-01 / End: 2021-06-30

Higher National Diploma in Digital Media Technology

Matthew Boulton College

Start: 2015-09-24 / End: 2017-07-31

BTEC Level 3 Extended Diploma in Applied Science

WORK EXPERIENCE

Upwork Web Developer

Start: 2022-02-22 / End: 2022-03-30

Using a mockup image of a page provided by the client I developed a landing page using HTML, CSS, and Javascript for use on their knowledge base software.

Freelance Web Developer

Start: 2022-01-01 / End: 2022-02-13

I was tasked with developing a portfolio for a graphic design student who is looking for a way to show off her best projects and the outcomes. The purpose of this website is for potential employers looking to hire her, to have easy access to her best work as well as a way to always have her work digitally ready to show anyone interested in what she has created.

SKILLS

HTML | SASS | JavaScript | Python | React JS | Flask | Chart JS | Webpack | NPM | Git/Github
